

Certificate of Achievement

Michael Lewis, FCMI

has completed the following course:

COMMUNITY BASED RESEARCH: GETTING STARTED

**UCL (UNIVERSITY COLLEGE LONDON), AMERICAN UNIVERSITY OF BEIRUT (AUB), LAU-CLS AND
MAPS**

This course explored the basics of community based research by inviting learners to examine and employ the citizen science methodology used by the RELIEF Centre in Lebanon.

3 weeks, 3 hours per week

Professor Diana Laurillard

Chair of Learning with Digital Technologies, RELIEF
Centre, UCL Knowledge Lab
UCL (University College London)

Dr Eileen Kennedy

Senior Research Associate, RELIEF Centre, UCL
Knowledge Lab
UCL (University College London)

The person named on this certificate has completed the activities in the attached transcript. For more information about Certificates of Achievement and the effort required to become eligible, visit futurelearn.com/proof-of-learning/certificate-of-achievement.

This certificate represents proof of learning. It is not a formal qualification, degree, or part of a degree.

Michael Lewis, FCMI

has completed the following course:

COMMUNITY BASED RESEARCH: GETTING STARTED

UCL (UNIVERSITY COLLEGE LONDON), AMERICAN UNIVERSITY OF BEIRUT (AUB), LAU-CLS AND MAPS

This course explored the basics of community based research by inviting learners to examine and employ the citizen science methodology used by the RELIEF Centre in Lebanon.

STUDY REQUIREMENT

3 weeks, 3 hours per week

LEARNING OUTCOMES

- Discuss the uses of community based research
- Assess the varying perspectives of different stakeholders in community based research
- Reflect on the sensitivities and ethics of community based research
- Identify a research question for community based research and appropriate research methods to answer it
- Develop research skills appropriate to community based research
- Produce a proposal for a community based research project

SYLLABUS

- Insight into the what, why, and how of community based research
- Identification of the skills needed to plan an effective research project, spanning research questions, qualitative and quantitative data collection, interview skills, and observation skills
- Planning of community based research projects, including development of a research proposal, submission for peer review, data analysis approaches, and networking and public engagement.
